

Elgin ND

Wheat – CNHR

Elgin ND is an owned wheat variety developed by NDSU. It is a high-yielding milling wheat with an excellent disease package and good lodging resistance. This variety is ideal for growers seeking high yield and maximum revenue per acre.

YIELD PERFORMANCE

Parentage: Walworth/Reeder

Yield	114 - 118% of Carberry
Protein	<ul style="list-style-type: none">Higher protein content than Faller and Prosper
Disease Resistance	<ul style="list-style-type: none">I to stem rust, R to leaf rust and MR to stripe rustS to buntI rating to FHB
Harvestability	<ul style="list-style-type: none">Excellent harvestabilityStands well
