# CDC Utmost VB

CWRS Wheat - Midge Tolerant

(AC® Elsa/CDC Teal/Seneca DH# 10)

High Yield  Midge Tolerant

## CDC Utmost VB

DEVELOPED BY  
Crop Development Centre

New very high yielding awnless CWRS with good lodging resistance and the best midge tolerance.

 yields  profits

- 20% higher yield than Lillian
- Comprehensive disease package
- Excellent standability
- Early maturity
- Short straw
- Contains the Sm1 gene for midge tolerance  
(Varietal blend of 90% CDC Utmost and 10% AC Harvest)

### Advantages

- Color retention
- Test weight
- Exceptional flour color
- Excellent noodle making wheat

### Benefits in the field

- Extremely high yielding
- Easy to swath
- Grades well
- Very profitable

### Testimonials

“This variety stands well, is easy to thresh and the disease package is very good. CDC Utmost VB is a very good wheat and I will seed this variety again.”
